

In this video we celebrate and recognize recent District 62 retiree Colleen Beaver. We highlight her amazing career of teaching music and drama to the students of Central and Orchard Place Elementary Schools. For decades, Colleen has not only instructed students in music, but instilled in them a love for the art of music and an appreciation for those who craft it. She has truly made a difference in the lives of countless students for more than 30 years. This video is on our district website as part of our D62 Stories and it was shown at a monthly Board of Education Meeting for our board members and our community.
