

During the June 3 school board meeting, we recognized 27 retirees for their combined total of over 600 years of hard work and dedication to the Seneca Valley School District. Members of the Seneca Valley School Board and Administration thanked the 2023-24 retirees for their unwavering commitment and service to students and staff members across the District. We wanted to capture this in more than just photos, which is what we typically do and we found this to be a better way to capture the attention of our public and generate many online "thank you" comments from colleagues, current families and alumni.
