

This video highlights the success of a PPS student who has speech and hearing impaired and how he overcame those challenges to succeed in the divisions barbering career and technical education pathway. What makes this video special are the people around CamRon, the subject in the video, who went above and beyond to help him achieve the goals he set out for himself. For example, both his interpreter Ms. Abbott and barbering teacher Mr. Wilkins consistently set aside time to work with Cam Ron after school and post-graduation. It is Mr. Wilkins, CamRons barbering teacher who especially was a driving force by making the extra time to assist in teaching and conducting practice exams for him. The video was shared on the divisions social media channels, and it was also used as part of the superintendents keynote address at the annual Leadership Institute. This video played on YouTube, being viewed over 350 times with 11 likes.
