

In the Williamsville Central School District, we value student voice. East Side News, the student newspaper at Williamsville East High School, is published on a monthly basis. In the spring of 2024, East welcomed New Yorks Governor, Kathy Hochul, who hosted a forum with students on social media and mental health. As part of this visit, East Side News joined the local and national press corps on hand, immersing them in real time news as it happens.
