

We created a version of this infographic for each school and handed them out during fall Parent-Teacher conferences along with a magnetic clip. The hope was that they would hang it on their refrigerator as a reminder and be able to track absences by marking off one of the mascot faces for each day of absence to give them a visual way to track the accumulation of absences and hopefully prevent chronic absenteeism. We will be evaluating our chronic absenteeism rates and comparing them to last year at the end of this school year.
