

The Community Education brochure is sent out three times per year to market programs and services provided by Centennial Community Education. Community Education serves people from birth through senior citizens, offering programs to enhance people's lives. The publication also showcases the school district and other community partners that bring value to the public. Whenever possible, pictures of actual participants are used in the document. The document is designed not only to provide enriching activities for the public, but also to build pride by showcasing the value and quality of the school district, encouraging participation and boosting enrollment.
