

From committed scholars to rockstar staff, The Spirit of Excellence captures the cultural essence of the Jackson Public School District. The annual publication contains highlights of our accomplishments and profiles of students and talented team members throughout the District. The thoughtfully arranged 32-page magazine features stunning photography alongside the inspiring stories and testimonies of representative personalities among our students and staff members. The Spirit of Excellence recognizes the outstanding efforts of our scholars and team members and helps us to create a positive and respectful culture within the District. This resource allows us to showcase and celebrate excellence in action. It is another way we can share the positive stories of our scholars and schools with the broader community.
