

Lovejoy ISD publishes an annual summer activity guide aimed at communicating both summer enrichment and athletic camps within the District. Summer camps create student learning, engagement, and connection opportunities when school is not in session. Additionally, summer programs are revenue generating for the District and our athletic programs, helping offset funding deficits. This summer activities guide features information about the benefits of summer programs, a quick guide, camp descriptions, and registration information. Lovejoy ISD's Summer Activity Guide is one of our most viewed publications, with 14,000 impressions and 1,000 clicks in our 4,000 student district.
