

Created for National Lunch Hero Day on May 3rd, 2024, this video was produced to highlight the hard work and dedication of our CCS food services teams. Fostering a sense of pride in and solidarity with our staff, our goal was to use this video to illustrate how much every CCS employee can mean to our young people. Many of these classified CCS employees have a huge positive impact on the students, but their stories are often overlooked in favor of teacher-student relationships. As a result of this video's popularity, our HR department also used this video as part of a classified staff recruitment campaign to attract new applicants to the food services job openings across the District.
