

During a heartfelt luncheon event recognizing district volunteers, Specialist Hailey Tognocchi was honored as the Military Volunteer of the Year. The event showcased a touching video tribute that highlighted her dedication and the positive impact she has made on students. This video, one of three segments celebrating the volunteers of the year from elementary and secondary campuses, served as a powerful reminder of the selfless contributions made by service members in their communities. A member of the video production team expertly shot and edited the piece, capturing both the spirit of Hailey's service and the gratitude of those she mentors. The video team member spent several hours with SPC. Tognocchi to capture engaging footage of her interacting with students at the campus where she volunteers and to interview her on camera. Three-point lighting was used for the interviews. The music licensed through [Triplescoopmusic.com](https://triplescoopmusic.com). The audience at the volunteer luncheon received the video with love, applauding the poignant moments that illustrated Hailey's commitment to fostering relationships with students. Her appreciation for the tribute was evident when she saw the video for the first time at the luncheon. Her smile showed her gratitude and reinforced the importance of honoring those who dedicate their time to mentorship and support. The video was also shared across all our social media platforms, reaching an even broader audience and inspiring others to recognize the invaluable contributions of volunteers like Specialist Tognocchi.
