

Superintendent Michael Burke is the leader of the largest workforce in Palm Beach County, a staff of more than 22,000 employees strong. Mr. Burke is prioritizing efforts to better understand the daily responsibilities and critical contributions of staff members. A video series called Burke at Work is one of many ways Mr. Burke is accomplishing this push toward increased familiarity with members of Team Palm Beach. Videos are published on the School District of Palm Beach Countys website, YouTube channel, internal and external email newsletters, social media, and shown to the community during event presentations. The Burke at Work series is widely praised by employees and often highlights community partners that provide programming support and resources for various career/choice academy programs.
