

Our Kids is a 30-minute television program that highlights JCPS students and schools. The monthly show includes reports from student correspondents at Ballard, Pleasure Ridge Park (PRP), and Fern Creek High Schools as well as stories that feature elementary and middle school students. The entire program is produced, written, shot, and edited by the JCPS Communications Team. Our Kids allows people throughout the Commonwealth of Kentucky to learn more about the work taking place throughout the district, as it airs on Kentucky Educational Television (KET). It is also a learning experience for students.
