

These are the first 3 videos in an ongoing series aiming to highlight unique opportunities and success stories throughout the schools in our district. The videos ultimately are meant to build up and honor our new district tagline that was reveal earlier this year: "Where Opportunities Ignite Excellence". The series goes out on the district's Facebook, Instagram, and YouTube accounts and is used to help establish the brand identity under the new tagline with the Millard community and to showcase opportunities to prospective students and their families.
