

District 39's "What I Like About You" series is a project that highlights each unique school culture and community through the words of its students, faculty, and staff. The videos touch upon each of the three tenets of our District vision as articulated in our Strategic Plan (Engaged Learning, Empowered Mindset, and Inspired Community). These videos also closely tie into both Goal 2 (Supportive Community) and Goal 4 (Family Partnerships) of our plan, as we aim to find creative ways to enhance our students' sense of belonging, build an inclusive community that celebrates the talents of all, and partner with our families to showcase their child(ren)'s learning environment. All of these "points of pride" videos were shared district-wide and achieved their goal of promoting community, illustrating District 39's commitment to cultivating a rich sense of belonging, and giving our students agency and voice.
