PLAN FOR FALL 2020 RE-ENTRY: In Person with Practical Mitigating Measures or Enroll in Virtual

- **Hand Sanitizing Stations**: Hand sanitizing stations are available in all classrooms and entry ways; dispensers are antimicrobial.
- **Stations**:
  - Hand Sanitizing
  - Electives/Specials
    - Instruction for some electives/specials may be delivered in alternative spaces
  - Additional Sanitization Procedures
    - High touch areas including desk, light switches, door knobs will be sanitized nightly
  - Hand Washing
    - Establish hand washing routines
  - Signage
    - Signage will be used to remind students and staff of hygiene practices
  - Physical Distancing
    - Desk and tables will be spaced to accommodate as much physical distancing as possible, class sizes will remain the same
  - Plexiglass Partitions
    - Placed in classroom areas where physical distancing is not possible
  - Staff
    - Staff will receive professional development regarding COVID symptoms, mitigation, and virtual/remote learning, and complete a declaration acknowledging their role in monitoring their symptoms
  - Students
    - Assign students to seats and limit shared materials, objects, and supplies
  - Virtual/Remote Online Learning
    - MNS will offer remote universal online instruction for students who enroll and for well students who are quarantined
  - Air & Surface Mitigation
    - Comply with CDC filtration recommendations for HVAC, increase fresh air intake, Ozone and UV light technologies for decontamination processes
  - Daily Checklist for Families
    - Updated July 31, 2020

**Signage**
- **Hand Washing**
- **Stations**
- **Electives/Specials**
- **Additional Sanitization Procedures**
- **Physical Distancing**
- **Plexiglass Partitions**

- **Students**
- **Virtual/Remote Online Learning**
- **Air & Surface Mitigation**
STAY SAFE to STAY OPEN

- Hand Sanitizing Stations: Hand sanitizing stations are available in all classrooms and entry ways; dispensers are antimicrobial.
- Flooring: Antimicrobial floor applications, where floor finish is applied.
- Windows: Increase fresh air circulation when feasible.
- Flooring: Antimicrobial floor applications, where floor finish is applied.
- Water Fountain Decommissioned: Bottle filling will be available.
- Additional Mitigation Measures: Including virtual field trips, limit visitors, and no large assemblies.
- Reduce Congestion: In various areas such as: cafeteria, recess, main office, health room and the use of lockers, library, and restrooms.
- Controlled Traffic Patterns: Maintain physical distance between students and staff.
- Outdoor Spaces: Utilize for learning where appropriate, including music and physical education.
- Bus: Provide assigned seats and coordinate the release of students to reduce congregating.
- Multiple Entry Points: Where feasible to reduce bottlenecks.
- Plexiglass Partitions: Placed in areas throughout the school.

- Surface Mitigation: Bioprotect application to high touch surfaces to protect against COVID-19 for up to 45 days and antimicrobial floor applications, where floor finish is applied.
- Isolation Rooms: Available for individuals who may be displaying symptoms while awaiting pickup.
- Face Coverings: Face masks are required. Accommodations will be made, with proper medical documentation. Specific ways in which face coverings and partitions will be used in schools, individual classrooms or with individual students and grade levels, including developmental and medical feasibility, will continue to be explored and articulated.
